

## Youth Forum member role description

Help us achieve our vision of restoring nature on a grand scale and develop that vision for the future.

We want young people in Avon to have an active voice and role in the future of our environment. With support for Our Bright Future, we are creating a Youth Forum to consider, influence and take action on environmental issues within and beyond Avon. The forum will represent young people from across the region and work closely with the Avon Wildlife Trust Board and Our Bright Future National Youth Forum. The Youth Forum will be made up of young people just like you. Your ideas and opinions will shape the direction the forum will take and you will be part of a network of environmentally minded individuals.

### What's involved?

- Minimum four meetings a year – plus opportunities to meet informally, for training and development offered throughout the year. To be agreed and decided by the forum.
- To develop a youth vision for Avon in line with our AWT strategy and the [Wilder Future Campaign](#);
- Work directly with staff to support the planning, development or delivery of our project work;
- Develop a youth membership to improve our offer to young people;
- Work closely with the Our Bright Future team at Avon Wildlife Trust and the wider [national project](#) to support their aims.

We recognise that your lives are moving and changing quite quickly, through education, further education and training and as such we would ask for a minimum commitment of six months but with an ideal term being at least one year.

We will provide an induction and opportunities for training and personal development. The Our Bright Future Team also offers active volunteering opportunities on a regular basis and you would be welcome to engage with these.

## Who are we looking for?

- A young person interested making changes for the environment and local wildlife.
- Aged between 14 and 24.
- Interested in attending events, meetings and workshops
- Confident to share opinions and ideas (we can offer training and development support if you are interested but don't feel ready to commit to being a forum member immediately)
- Excited about influencing policy decisions around young people and the environment

## What's in it for you?

- A chance to meet other young people who are passionate about the environment
- Training and development opportunities to support you in the role and for the future
- Experience you can evidence through accreditation, references and volunteering to add to your CV
- A chance to advocate for other young people and the environment.

This is an exciting opportunity to develop your skills, boost your confidence, learn about and engage with the work of Avon Wildlife Trust, and make a difference to your future and the future of your environment.

## Application process

If you would like to apply to be a member of the youth forum please download an application form and tell us as much as possible about why you are interested in the role.

Please note although there are limited places this is a continuous application as we expect that members will move on. We can also offer support and training if you feel that you would like to build up your confidence and experience before applying.

We have volunteering and work experience opportunities which are both great ways to be introduced to the work of the trust.

We look forward to hearing from you and if you have any questions please do get in touch with Catherine: [ourbrightfuture@avonwildlifetrust.org.uk](mailto:ourbrightfuture@avonwildlifetrust.org.uk)
