

My Wild Child at Grow Wilder – Covid safety

Dear My Wild Child families,

We are relaunching our popular My Wild Child sessions and hope to see some of you there on Friday mornings during term time. Due to the current Coronavirus (COVID-19) pandemic, we are changing how we work and run activities at Avon Wildlife Trust, in order to keep participants at our events and our staff safe, as far as is reasonably practicable. This means that booking for My Wild Child is now essential.

Before you can attend **My Wild Child**, please read and familiarise yourselves with the following Covid-19 procedures, Thank you!

These procedures are based on our current risk assessments. Due to the changing situation with Coronavirus, this guidance (last updated 5th March 2021) may be subject to changes and in which case, we will review our procedures.

- If you or anyone in your household has symptoms of COVID-19 on the day of My Wild Child or in the previous 14 days you must not attend.
- If you or anyone in your household start exhibiting symptoms of COVID-19 within 10 days of attending My Wild Child you must contact us as well as NHS Track and trace.
- The current NHS advice is that testing should be done within 5 days of developing symptoms.
- Each My Wild Child session will begin with a health and safety talk, to remind everyone of the rules and procedures in place to keep everybody safe.
- Parents are responsible for ensuring that your children maintain social distancing during the session and whilst on site at Grow Wilder. If social distancing cannot be maintained you may have to leave the session to ensure everyone's safety.
- In line with current government guidance, we will be limiting the size of the groups who can attend My Wild Child. We will take bookings for 5 families only, with 3 people per family- a maximum of 15 people, excluding staff. We regret that we will have to turn away families who haven't booked.
- Please be aware that government guidance states the following in relation to extra-curricular Parent and Child groups: "Advise parents and carers that they should be limiting their use of multiple out-of-school settings, and should as far as possible only be sending their children to one out-of-school setting, in addition to school. In order to minimise mixing encourage parents and carers to avoid public transport to get to your setting - where possible, encourage them to have their child walk or cycle to the setting, or have them dropped off by a member of their household in a private car."
- My Wild Child will take place outside, which reduces the risk of Covid transmission. Please come dressed for all weather, and consider bringing an umbrella. In the event of poor weather, we may use indoor spaces, but only where social distancing is possible. We will also open windows where possible to improve ventilation. We have carefully considered all activities and are only running activities where social distancing can be maintained.
- Cleaning and disinfecting of indoor surfaces and 'high-touch' places will be enhanced (banisters, door handles, tables etc).
- All communal areas such as toilets will be cleaned and disinfected regularly with hand-sanitiser available outside toilets and other communal spaces.
- Hand sanitiser will be provided around the site and we will pause for hand washing and/or hand sanitising as frequently as necessary.
- We ask all families to bring their own food and drink, and to not share food or drink with others.

- In the event of first aid being needed, parents may be asked to administer this themselves (e.g plasters), or if first aid must be administered by staff, masks will be worn by all adults for whom it is safe to do so.
- Whenever possible, equipment and resources will not be shared but if they are, they will be cleaned and disinfected between uses.
