-  unpaved footpath
-  wildflower area
-  dense scrub
-  Newlands Rhine
-  paved footpath
-  Reed bed

To get to the Moor, walk along Lawrence Weston Road and turn right just before the road goes over a little bridge.

Water vole

photo by Adam Chlebik

You can find out some interesting facts about Lawrence Weston Moor here.

You then follow the edge of the Rhine to get to the Moor. Look out for water voles!

A great place to stop for a picnic, relax, or to go bug hunting!

In the summer the reeds grow really long here, it is exciting walking through them! There is a boardwalk to stop you getting too wet, but you might still need welly boots.

Painting by Eleanor, year 6

Wow!

This photo by Jerome shows reeds reflected in the pond. Sit on the pond platform for a few minutes and you might spot newts, tadpoles, dragonflies or even a water vole!

Bullfinch

"I am a bird and I sit in a weston Moor tree  
 And I am on a mission to tell you what I see  
 I can see a lovely pond in the middle of the trees  
 the gentle wind blows my hair  
 And the clouds gently move like a wild life snail  
 when I breathe in I can feel the real life air  
 And this is the real life weston Moor  
 when I look at it, it feels so, so AMAZING!"

Poem by Alana, year 5

# Explore Lawrence Weston Moor

Did you know that there is a secret place full of nature, right here in Lawrence Weston?

We love it there and so will you!  
 It is home to amazing wildlife like deer, snipe and the rarest animal in Bristol, the water vole! All you need are wellies or boots and a sense of adventure!

*This leaflet is made by Avon Wildlife Trust & the talented pupils of Our Lady of the Rosary Primary School. The map is made by the artist and illustrator Rebecca Howard.*
